

Health and Safety Report

May 10th, 2020

Good morning everyone,

Since the coronavirus outbreak, there have been many changes to what we considered normal. Now coming to work starts by having our temperature scanned, wearing a facemask, washing our hands frequently and staying 6 feet apart from one another.

What steps has Ford taken to reduce risk and foster safety here at Bramalea?

- Closely monitor and follow health and wellness guidance from global and national health experts
- Use a variety of means to educate our members about coronavirus symptoms and preventive measures they can/should take
- Increased cleaning/disinfecting frequency of hard surfaces, common areas, break rooms, PMHV's and washrooms
- Implement temperature scanning and the wearing of facemasks in the workplace
- Provide additional hand sanitizing stations throughout the facility

I would like to thank everyone for doing their part and together we will get thru this. Have a safe and happy mother's day weekend.

I move for adoption of my report.

In Solidarity

Jeff Hillier
